Janson capsules

Expanding the horizons of your creativity with our dynamic capabilities.

Janson Capsules is the second largest American producer of capsules and the third European one, becoming now more than ever one of the industry leaders for both the wine and spirit markets worldwide.

Our steadily growing company with increased production capabilities in Alabama, sets the pace for a new dynamic, focused on an expanding and evolving range of products. With increasing sales and a strengthened sales and customer service support team in Napa, California, we offer a higher level of service to meet and anticipate any needs you may have. Partnering your creativity and imagination with our technical knowledge and capabilities, allows us to provide you with what we do best : sharing creativity that has no boundaries.

JC Original

Our range of PVC Capsules

JC Original™ - Our PVC (heat shrink) capsules are made to the specifications of the majority of glass moulds for the wine and spirits markets. With this range of capsules, our goal is to offer you a product that is as flexible and customizable as necessary to fit your packaging requirements. With JC Original™, PVC capsules have never been as adaptable to your requirements as they are now.

JC Prestige

Our range of Polylam Capsules

JC Prestige™ - Our Polylam capsules are made to give your final packaging an elegant and aesthetically pleasing look and finish.

Polylam provides a lower cost alternative to the rising costs of tin, without sacrificing the quality and wine drinking experience of the consumer.

Our range of Screw Caps

JC Twist™ - In order to offer the market and our customers the best choice of closure in the changing direction of consumption, Janson Capsules is proud to launch its brand new range of products: JC Twist™ Screw Caps. JC Twist™ offers:

- Most Standard Sizes: Available in stock colors, as well as being fully customizable
- Complete Range of Liner Choices: Saranex, Tin, and Gas
- Security: Certification and technical specification forms
- Decoration Options: Embossing, off-set printing, and hot stamping
- Technical Assistance: Fully knowledgeable and trained support staff available as necessary
